

Shine Gold

For Childhood Cancer Awareness

Help us Shine Gold for Childhood Cancer Awareness this September!

1. Choose a Day or Week

Pick a day—or an entire week—in September for your school to Shine Gold in honor of children and families impacted by childhood cancer.

2. Choose How Your School/Work Will Celebrate

There are so many ways students and staff can get involved:

- **Wear Gold:** Encourage students and staff to wear all things gold.
- **Make Feel Better Cards:** Create encouraging cards and artwork for children currently battling cancer.
- **Host a Coin or Dollar Drive:** Collect spare change or dollars to support children and families impacted by childhood cancer. A large check presentation can be arranged for participating schools.
- **Invite a Speaker:** Older classrooms can hear from speakers about topics like resiliency, childhood cancer research, nonprofit work, advocacy, and ways to support people going through difficult times.
- **Learn the Signs:** Help students and families recognize common signs and symptoms of childhood cancer using our attached educational infographic.
- **Read & Learn:** Younger classrooms can read age-appropriate books about childhood cancer warriors, kindness, courage, and resiliency.
- **Get Creative:** Make gold decorations, classroom doors, posters, ribbons, or other displays to help your entire school Shine Gold!

Whether your school/work chooses one activity or celebrates all week long, every effort helps bring greater awareness, support, and hope to children battling cancer and the families standing beside them.
